## UO PATRIMONIO E TECNOLOGIE IMPIANTISTICHE

### **DETERMINAZIONE**

**OGGETTO:** FORNITURA E INSTALLAZIONE IMPIANTI DISINFEZIONE RETI IDRICHE DELLA LEGIONELLA MEDIANTE CLORAMMINE” – AFFIDAMENTO DIRETTO SUL MEPA DI CONSIP ALLA DITTA SANIPUR SRL – GARA N. 20/2017 – CIG ZC61FE0681

### **IL DIRETTORE**

Premesso che:

- con deliberazione del Direttore Generale n. 329 del 31.5.2001, in attuazione del principio di separazione tra funzione di indirizzo-programmazione-controllo e funzione di gestione, è stato operato il decentramento della competenza all’adozione degli atti di gestione, in capo alla Dirigenza, individuando le categorie di atti assegnati alla competenza propria o delegata delle posizioni dirigenziali;

- con le Deliberazioni n. 92 del 18.07.2005, n. 19 del 24.01.2002, n. 114 del 23.08.2002 e n. 49 del 02.04.2003 sono state confermate le competenze proprie precedentemente attribuite alla Dirigenza con la citata Delibera n. 329 del 31.05.2001;

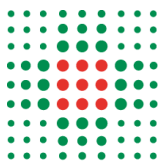

- si rende necessario procedere alla fornitura ed installazione di sistemi di disinfezione dalla legionella, mediante dosaggio di Monocloramina, per reti idriche di acqua calda sanitaria potabile presso l’Ospedale di Imola;

- con determina a contrarre n. 123 del 22/02/2017 è stata avviata, da parte della U.O. Patrimonio e Tecnologie Impiantistiche, una indagine di mercato, per un importo presunto di € 128.832,00 (IVA compresa), al fine di individuare le ditte in possesso dei requisiti per la “REALIZZAZIONE E GESTIONE DI IMPIANTI DI DISINFEZIONE DI RETI IDRICHE DALLA LEGIONELLA MEDIANTE MONOCLORAMMINE DEI PRESIDI OSPEDALIERI DELL’AUSL DI IMOLA” di seguito precisati:

- Il possesso, per il sistema di disinfezione con Monocloramine, del libretto tossicologico/direttiva biocidi ai sensi del Regolamento UE 528/12 punto PT5;
- Il possesso di tecnologia brevettata in Italia per il sistema di disinfezione con Monocloramine;

- a seguito di tale indagine, sono pervenute nr. 3 manifestazioni di interesse, da parte delle ditte sotto elencate:

- Ditta SANIPUR SRL – Via Quasimodo, 25 - Flero (BS)
- Ditta ACEL SRL – Via G. Righi, 9 – Parma

- Ditta BIOH FILTRAZIONE SRL – Via Signorini, 13 – Cinisello B.mo (MI)

- dalla documentazione presentata da parte della ditte sopra elencate, come indicato nel Verbale di seduta privata del “Gruppo di Valutazione Rischio Legionella” , prot. 22846 del 24/07/2017, allegato al presente provvedimento quale parte integrante, di questa Azienda USL si è rilevato quanto segue:

- La ditta SANIPUR SRL ha dichiarato di aver presentato una documentazione completa per l’iscrizione nell’elenco ai sensi del Regolamento UE 528/12 punto PT5, nonché di essere in possesso del brevetto italiano per il sistema di disinfezione con monoclorammina;
- La ditta ACEL SRL è risultata idonea per quanto riguarda il possesso del brevetto italiano, ma, per quanto riguarda il libretto tossicologico, ha dichiarato di avere presentato domanda per uno solo dei due componenti del biocida finale (monoclorammina) affermando non essere necessario tale requisito per l’altro reagente, essendo esso non classificato come biocida;
- La ditta BIOH FILTRAZIONE SRL ha presentato la documentazione relativa al possesso di un brevetto per apparecchiature che producono “biossido di cloro”, dichiarando che le medesime apparecchiature sono idonee anche per la produzione in situ di “monoclorammina”, senza peraltro darne alcuna dimostrazione.

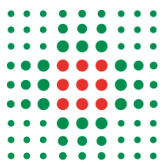

- vista la deliberazione n. 117 del 15/06/2017, di approvazione del Bilancio Preventivo dell’Azienda USL di Imola, nella quale, per la fornitura degli impianti di disinfezione in parola, è stata invece prevista una spesa complessiva di € 50.000,00 (IVA compresa) finanziati in conto esercizio che pertanto comporta la necessità di terminare l’installazione e di liquidare l’impresa entro e non oltre il 31/12/2017;

- considerato che con determina del Direttore della U.O. Patrimonio e Tecnologie Impiantistiche di questa Azienda USL n. 472 del 27/06/2017 la procedura avviata relativa all’indagine di mercato è stata annullata in quanto i fondi disponibili nel bilancio aziendale non sono sufficienti per procedere all’espletamento della procedura di gara così avviata;

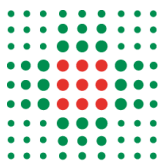

- visto il Regolamento Europeo sui biocidi (BPR) n. 528/2012, che abroga e sostituisce la Direttiva Biocidi (BPD) n. 98/8/CE, e riguarda l'immissione sul mercato e l'uso di biocidi per la tutela della salute dell'uomo e dell'ambiente, Regolamento al quale tutti gli Stati membri hanno l'obbligo di adeguarsi;

- considerato che la monoclorammina è un biocida prodotto in situ che sarà utilizzato per sanificare acqua potabile la sua generazione è strettamente connessa alla tecnologia approvata in un Dossier che deve essere sottoposto all’esame dei competenti organi europei ai sensi della Direttiva Biocidi (BPD) n. 98/8/CE;

- preso atto che presso l’Unione Europea è stata istituita l’ECHA (European Chemical Agency) la quale si occupa dell’attuazione della legislazione UE sulle sostanze chimiche, allo scopo di tutelare la salute umana e l’ambiente e di promuovere l’innovazione e la competitività;

- considerato che, in seguito all'indagine di mercato, la ditta Sanipur è risultata avere la maggior parte dei requisiti richiesti e l'unica aver presentato una documentazione completa per l'iscrizione nell'elenco ai sensi del Regolamento UE 528/12 punto PT5;
- visto il Verbale di seduta privata sopra citato nel quale, alla luce della documentazione presentata dalle ditte sopra elencate, il "Gruppo di Valutazione Rischio Legionella" di questa Azienda USL ha autorizzato il Direttore della U.O. Patrimonio e Tecnologie Impiantistiche a procedere all'affidamento diretto alla ditta SANIPUR SRL di Flero (BS), della fornitura e installazione di nr. 4 impianti di disinfezione dalla legionella delle reti idriche dell'Ospedale di Imola, considerati dal Gruppo di Valutazione prioritari, in base alle risorse aziendali a disposizione;
- vista la nota, prot. n. 29080 del 25/09/2017, allegata al presente provvedimento quale parte integrante, nella quale la ditta SANIPUR Srl ha dimostrato di essere stata inserita nell'elenco delle ditte europee con dossier approvato ECHA Monoclorammina, di cui al Regolamento UE 528/12 punto PT5, "direttiva biocidi", sopra richiamato;
- considerato che la ditta SANIPUR SRL di Flero (BS) risulta pertanto essere in possesso della documentazione atta a garantire l'ottemperanza al Regolamento Europeo sui biocidi (BPR) n. 528/2012 e dare garanzie nell'uso dei biocidi per la tutela della salute dell'uomo e dell'ambiente;
- richiamato il D.L. n. 95 del 06/07/2012 convertito con la Legge n. 135 del 07/08/2012, che all'art. 15, comma 13 lett. D) che prevede l'obbligo di approvvigionarsi attraverso gli strumenti di acquisto messi a disposizione da CONSIP (L. 488/1999, art. 26) o da centrali di committenza regionali;
- viste le disposizioni di cui all'art. 7, comma 2, DL. 52/2012 convertito nella Legge 94/2012, che, per gli acquisti di beni e servizi di importo inferiore alla soglia comunitaria, obbliga le amministrazioni a fare ricorso al mercato elettronico della Pubblica Amministrazione ovvero ad altri mercati elettronici istituiti dalla Centrale di Committenza di riferimento e secondo le modalità di cui all'art. 328 del DPR 207/2010;
- visto altresì l'art. 36, comma 6 del D.Lgs. 50/2016 che prevede che le Stazioni appaltanti, per le procedure sotto soglia comunitaria, procedano attraverso il mercato elettronico delle pubbliche amministrazioni;
- vista la procedura di richiesta di offerta, generata sul MEPA di Consip, creando la trattativa nr. 247772 del 25/09/2017, con la quale è stata richiesta alla ditta SANIPUR Srl un'offerta al ribasso sull'importo a base di gara di € 39.900,00, di cui € 39.700,00 soggetti a ribasso ed € 200,00 per oneri della sicurezza non soggetti a ribasso;
- vista infine l'offerta presentata dalla ditta SANIPUR Srl, la quale ha offerto un ribasso pari allo 0,01% sull'importo a base di gara, per un importo di € 39.696,03 oltre a € 200,00 per oneri della sicurezza, per complessivi € 39.896,03 (IVA esclusa);

- considerato pertanto opportuno procedere all'affidamento alla ditta SANIPUR Srl della "Fornitura e installazione di impianti di disinfezione reti idriche dalla legionella mediante clorammine per l'Ospedale di Imola" al prezzo complessivo di € 39.696,03 oltre a € 200,00 per oneri della sicurezza, per complessivi € 39.896,03, oltre a IVA 22% pari a € 8.777,13 per complessivi € 45.673,16;
- il Responsabile del Procedimento di cui al presente atto è l'Ing. Domenico Alessandro Faiello, direttore della U.O.P.T.I.;
- i rapporti contrattuali tra l'AZIENDA USL di Imola ed i terzi contraenti sono regolati dalle norme del C.C. in materia e che i termini di pagamento, ai sensi dell'art.4 comma 2, e art.5 lett. b) del D.Lgs.231/2002, come modificato dal D.Lgs 192/2012;
- la UOPTI ha provveduto all'attribuzione della spesa derivante dal presente provvedimento al Budget di riferimento;
- l'oggetto del presente provvedimento rientra tra le categorie di atti assegnati alla competenza propria del Direttore della U.O. Patrimonio e Tecnologie Impiantistiche, Ing. D. Alessandro Faiello.

#### **Determina**

1) di affidare la "Fornitura e installazione di impianti di disinfezione reti idriche dalla legionella mediante clorammine per l'Ospedale di Imola" alla ditta SANIPUR Srl di Flero (BS) – Via della Pendolina, 21 – cod. fisc. 02091210175 - al prezzo di € 39.696,03 oltre a € 200,00 per oneri della sicurezza, per complessivi € 39.896,03 (IVA esclusa);

2) di dare atto che la spesa derivante dal presente provvedimento, di € 39.896,03 oltre a IVA 22% pari a € 8.777,13 per complessivi € **45.673,16** è stata prenotata al Conto di contabilità generale 2017 – Conto AA2302 "Impianti e macchinari non sanitari" in riferimento al budget n. 112 sotto budget n. 1: Fonte di finanziamento Conto Esercizio Progetto 73507

Dipartimento Amministrativo e Tecnico  
U.O. Patrimonio e Tecnologie Impiantistiche

Il Direttore

**Oggetto:** REALIZZAZIONE E GESTIONE IMPIANTI DI DISINFEZIONE DALLA LEGIONELLA, DELLE RETI IDRICHE DEI PRESIDI OSPEDALIERI DELL'AUSL DI IMOLA, MEDIANTE MONOCLORAMMINE. **VERBALE GRUPPO VALUTAZIONE RISCHIO LEGIONELLA.**

### VERBALE DI SEDUTA PRIVATA

Addì, 06 giugno 2017, alle ore 09.00 presso la sala riunioni della Direzione Generale.

Sono presenti:

- Dr.ssa Emanuela Dall'Olmi – Direttore Sanitario
- Dott.ssa Lorena Landi – Direttore U.O. Prevenzione Protezione Sicurezza Aziendale
- Dott. Roberto Rangoni – Direttore U.O. Igiene e Sanità Pubblica
- Dr.ssa Filonema Rini - dirigente medico direzione medica
- Ing. Domenico Alessandro Faiello – Direttore U.O. Patrimonio e Tecnologie Impiantistiche
- Dott.ssa Paola Bandini – Responsabile settore Amm.vo U.O. Patrimonio e Tecnologie Impiantistiche
- Per. Ind. Marco Orsi – U.O. Patrimonio e Tecnologie Impiantistiche

Il gruppo è stato convocato dall'Ing. D.A. Faiello al fine di valutare la metodologia di scelta della ditta che dovrà installare le apparecchiature di disinfezione, mediante monoclorammina, dell'acqua calda sanitaria per la prevenzione del rischio "legionella" negli ospedali di Imola, Castel San Pietro e Medicina, afferenti all'AUSL di Imola.

Al fine di acquistare gli impianti in parola, l'ing. Faiello illustra le attività che sono già state espletate dalla U.O. Patrimonio e Tecnologie Impiantistiche: è stata avviata una prima fase di "indagine di mercato" al fine di individuare quali ditte posseggono i requisiti necessari per installare e gestire tali impianti.

L'indagine di mercato ha portato alla presentazione di nr. 3 "manifestazioni di interesse" da parte delle ditte sotto elencate:

- Ditta SANIPUR SRL – Via Quasimodo, 25 - Flero (BS)
- Ditta ACEL SRL – Via G. Righi, 9 – Parma
- Ditta BIOH FILTRAZIONE SRL – Via Signorini, 13 – Cinisello B.mo (MI)

L'ing. Faiello spiega che i requisiti di idoneità professionale necessari, che sono stati richiesti con l'indagine di mercato, riguardano, in particolare:

- Il possesso, per il sistema di disinfezione con Monoclorammine, del libretto tossicologico/direttiva biocidi ai sensi del Regolamento UE 528/12 punto PT5;
- Il possesso di tecnologia brevettata in Italia per il sistema di disinfezione con Monoclorammine.

Dalla documentazione pervenuta da parte della ditte sopra elencate, è risultato quanto segue:

- La ditta SANIPUR SRL dichiara di aver presentato una documentazione completa per l'iscrizione nell'elenco ai sensi del Regolamento UE 528/12 punto PT5, nonché di essere in possesso del brevetto italiano per il sistema di disinfezione con monoclorammina;
- La ditta ACEL SRL è risultata idonea per quanto riguarda il possesso del brevetto italiano, ma, per quanto riguarda il libretto tossicologico, ha dichiarato di avere presentato domanda per uno solo dei due componenti del biocida finale (monoclorammina) affermando non essere necessario tale requisito per l'altro reagente, essendo esso non classificato come biocida;
- La ditta BIOH FILTRAZIONE SRL ha presentato la documentazione relativa al possesso di un brevetto per apparecchiature che producono "biossido di cloro", dichiarando che le medesime apparecchiature sono idonee anche per la produzione in situ di "monoclorammina", senza peraltro darne alcuna dimostrazione.

Pertanto tra le ditte che hanno partecipato all'indagine di mercato, SANIPUR risulta essere la ditta con la documentazione più completa.

La dr.ssa Dall'Olmi chiede se, nella Regione Emilia Romagna, altre Aziende Sanitarie hanno installato impianti analoghi a quello in parola: dalla documentazione presentata risultano installati dalla ditta SANIPUR impianti di disinfezione con monoclorammina presso l'Ospedale Sant'Orsola di Bologna, Policlinico di Modena e in varie sedi dell'Ausl Romagna; per quanto riguarda le altre ditte, dalla documentazione, non risultano installazioni in Regione.

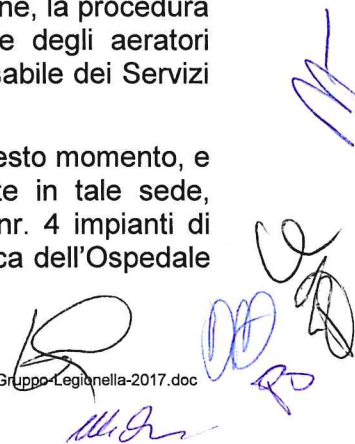

L'ing. Faiello elenca quanti sono gli impianti che devono essere acquistati e dove devono essere installati: nr. 4 presso l'Ospedale Civile di Imola, nr.1 presso il Polo Sanitario di Castel San Pietro e nr. 1 presso il Polo Sanitario di Medicina.

La dr.ssa Dall'Olmi valuta necessario acquistare in via prioritaria le apparecchiature da installare presso l'Ospedale di Imola, considerata la particolare tipologia di pazienti interessati.

L'ing. Faiello afferma che, le macchine da installare negli altri presidi, potrebbero essere acquistate successivamente, in base ai risultati ottenuti e verificati dalla messa in servizio delle prime.

La dott.ssa Landi raccomanda che, negli impianti nei quali non verrà installato il sistema di disinfezione in questa prima fase, venga però curata con particolare attenzione, la procedura esistente relativa al "flussaggio periodico dei rubinetti e alla sostituzione degli aeratori flangigetto" dandone precisa indicazione alla Sig.ra Silvia Lanzoni, Responsabile dei Servizi alberghieri.

L'ing. Faiello dopo aver concluso l'illustrazione di quanto avvenuto fino a questo momento, e alla luce della documentazione ricevuta e delle considerazioni sviluppate in tale sede, propone di procedere all'acquisto diretto, con la ditta SANIPUR SRL, di nr. 4 impianti di disinfezione acqua calda sanitaria che verranno installati nei corpi di fabbrica dell'Ospedale Civile di Imola come sotto indicati: DG1 – DG2 – OP – LAB.

L'acquisto verrà effettuato per un importo non superiore a € 40.000,00, ai sensi di legge e in conformità al budget a disposizione per investimenti.

Ad avvenuta installazione, si procederà alla verifica dei risultati garantiti dalla ditta SANIPUR SRL, che dovranno dimostrare l'ottenimento di "almeno 95% di negatività" dei risultati analizzati entro un anno dalla messa in servizio e il valore di caria batterica degli eventuali campioni positivi entro 1000 UFC/litro, garantendo la potabilità dell'acqua in ogni caso sull'intero impianti trattato.

Il Gruppo Valutazione Rischio Legionella concorda con la proposta dell'ing. Faiello.

Letto, approvato, si sottoscrive per accettazione.

Dott. Emanuela Dall'Olmi

Dott. Ing. Domenico Alessandro Faiello

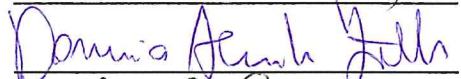

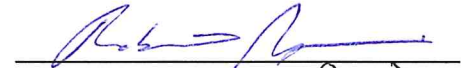

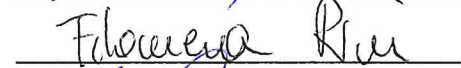

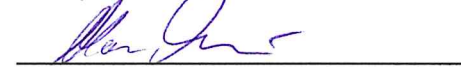

Dott. Lorena Landi

Dott. Roberto Rangoni

Dott. Filomena Rini

Per. Ind. Marco Orsi

Dott. Paola Bandini

## Article 95 List

Prepared as of 22 September 2017

### Explanatory Note

According to Article 95(1) of the Biocidal Products Regulation, ECHA is to publish a list of relevant substances and the respective substance and product suppliers. The relevant substances are the active substances, and all substances generating an active substance, for which a dossier complying with Annex II to Biocidal Products Regulation or with Annex IIA or IVA to Directive 98/8/EC and, where relevant, Annex IIIA to that Directive ("the complete substance dossier") has been submitted and accepted or validated by a Member State in a procedure provided for by this Regulation or that Directive.

The suppliers (substance or product) are the persons who made the above-mentioned submission to a Member State or alternatively who make a submission to ECHA consisting of a complete substance dossier, a letter of access to a complete substance dossier or a reference to a complete substance dossier for which all data protection periods have expired.

A substance supplier is an entity who manufactures or imports a relevant substance on its own or in biocidal products. A product supplier is an entity who manufactures or makes available on the market a biocidal product consisting, containing or generating that relevant substance.

The purpose of this list is to "ensure the equal treatment of persons placing active substances on the market" (recital 8 of the Biocidal Products Regulation).

The list is structured per active substance and includes all product types (PTs), for which a submission has been made for the particular substance. In addition to this, the list includes the names of the entities (and the country from their address), their role as substance supplier and/or product supplier and the date of inclusion of the entity in the list. The names of non-EU companies, who are either participants in the Review Programme or applicants under Article 95(1), are published together with their appointed EU-representatives (For Non-EU entities which have not yet appointed an EU representative there will be an indication).

The Article 95 list includes participants in the Review Programme (indicated in the list as RP Participant), supporters of new active substances, who have submitted a dossier under Article 11 of Directive 98/8/EC or under Article 7 of the BPR (indicated in the list as New Active), supporters of active substances benefitting from the transitional measures of Article 93 of the BPR (indicated as Article 93), submitters of product authorisation applications where the application includes an alternative active substance dossier (indicated in the list as Third Party Dossier), as well as suppliers who submitted an application in accordance with Article 95(1) of the BPR and which has been found compliant by ECHA (indicated in the list as Art.95 submission).

Participants in the Review Programme, supporters of new active substances and active substances benefitting from the transitional measures of Article 93 are indicated in the role of substance suppliers and/or product suppliers, as appropriate. Article 95(1) applicants are listed as substance suppliers and/or product suppliers (depending on the information in their submission), and submitters of a 'third party dossier' are listed as product suppliers.

As specified in Article 95(2), as of 1 September 2015, a biocidal product consisting of, containing or generating a relevant substance, included in the Article 95 list, shall not be made available on the market unless either the substance supplier or the product supplier is included in this list for the product-type(s) to which the product belongs.

**The information on the list is accurate to the extent of ECHA's knowledge as of the date of preparation of the list. If you would like to comment or send requests for modification of the list please submit the request for corrections of entries on the Article 95 list available at the ECHA website.**

### Disclaimer

**Article 95 List**  
Prepared as of 22 September 2017

**Explanatory Note**

According to Article 95(1) of the Biocidal Products Regulation, ECHA is to publish a list of relevant substances and the respective substance and product suppliers. The relevant substances are the active substances, and all substances generating an active substance, for which a dossier complying with Annex II to Biocidal Products Regulation or with Annex IIA or IVA to Directive 98/8/EC and, where relevant, Annex IIA to that Directive ("the complete substance dossier") has been submitted and accepted or validated by a Member State in a procedure provided for by this Regulation or that Directive.

The suppliers (substance or product) are the persons who made the above-mentioned submission to a Member State or alternatively who make a submission to ECHA consisting of a complete substance dossier, a letter of access to a complete substance dossier or a reference to a complete substance dossier for which all data protection periods have expired.

A substance supplier is an entity who manufactures or imports a relevant substance on its own or in biocidal products. A product supplier is an entity who manufactures or makes available on the market a biocidal product consisting, containing or generating that relevant substance. The purpose of this list is to "ensure the equal treatment of persons placing active substances on the market" (recital 8 of the Biocidal Products Regulation).

The list is structured per active substance and includes all product types (PTs), for which a submission has been made for the particular substance. In addition to this, the list includes the names of the entities (and the country from their address), their role as substance supplier and/or product supplier and the date of inclusion of the entity in the list. The names of non-EU companies, who are either participants in the Review Programme or applicants under Article 95(1), are published together with their appointed EU-representatives (For Non-EU entities which have not yet appointed an EU representative there will be an indication).

The Article 95 list includes participants in the Review Programme (indicated in the list as RP Participant), supporters of new active substances, who have submitted a dossier under Article 11 of Directive 98/8/EC or under Article 7 of the BPR (indicated in the list as New Active), supporters of active substances benefitting from the transitional measures of Article 93 of the BPR (indicated as Article 93), submitters of product authorisation applications where the application includes an alternative active substance dossier (indicated in the list as Third Party Dossier), as well as suppliers who submitted an application in accordance with Article 95(1) of the BPR and which has been found compliant by ECHA (indicated in the list as Art.95 submission).

Participants in the Review Programme, supporters of new active substances and active substances benefitting from the transitional measures of Article 93 are indicated in the role of substance suppliers and/or product suppliers, as appropriate. Article 95(1) applicants are listed as substance suppliers and/or product suppliers (depending on the information in their submission), and submitters of a 'third party dossier' are listed as product suppliers.

As specified in Article 95(2), as of 1 September 2015, a biocidal product consisting of, containing or generating a relevant substance, included in the Article 95 list, shall not be made available on the market unless either the substance supplier or the product supplier is included in this list for the product-type(s) to which the product belongs.

**The information on the list is accurate to the extent of ECHA's knowledge as of the date of preparation of the list. If you would like to comment or send requests for modification of the list please submit the request for corrections of entries on the Article 95 list available at the ECHA website.**

Ciao Alessandro.  
Ti alelgo quanto attendevamo da mesi.

Ti chiederai un appuntamento per effettuare il sopralluogo affinch?possa prendere visione dei luoghi di installaizone, devo ordinare i contatori ed i contenitori; le macchine gi?ordinate dovrebbero arrivare tra il 4 ed il 10 ottobre.

Grazie.

Gianluca
